Dulux®

ZINTL® COLOUR RANGE

Zintl® interlocking aluminium cladding system is offered in a wide range of Interpon and Dulux powder coated finishes, as well as a selection of anodized and wood grain architectural finishes, providing a beautifully refined aesthetic.

With its mix of natural bold and subtle hues, Zintl® is perfect for a wide range of applications and

suits any budget. Its durability makes it particularly well suited for coastal properties and high traffic areas.

All Zintl® aluminium cladding powder coatings are applied on a project basis with a standard lead time of approximately 12 days.

POWDER COATING INFORMATION

Colours displayed on this colour card are a guide only and have been matched as close as possible to production standards under daylight conditions. Due to the nature of the printing process some degree of colour and gloss level variation may occur. Where more than one finish is available product colour may vary. We recommend that you use production line prepared samples for final colour selection or approval.

Stocked Products (S) and Made to Order Products (O) are current as at color card printing. Stocking Policy may change over time and without notice. Please check with your Zintl® representative to ensure you have the latest product stock information.
