

MondoClad

COLOUR CARD

NON-COMBUSTIBLE PRE-FINISHED ALUMINIUM PANELS

NON-COMBUSTIBLE ALUMINIUM PANELS

MondoClad® is non-combustible, durable, and can be easily folded into cassettes, meaning that even the most ambitious creative vision can be realised.

Colour that lasts

The superior PVDF architectural coating of MondoClad® offers excellent UV stability and colour retention. MondoClad® offers a 20 year warranty, available on application and subject to approval.

Installation of metallic panels

To avoid possible differences in levels of light reflectivity, panels are best installed in the direction indicated on the protective peel-off foil.

Colour variations may occur between panels originating from different production batches. To ensure colour consistency, the total panel requirement for a project should be placed in a single order.

Confidence and certainty

Testing and installation of our MondoClad® solid aluminium panels was performed in order to satisfy stringent CodeMark requirements. Our premium solid aluminium cladding panels – MondoClad® will provide you with extra comfort and peace of mind knowing that it is CodeMark certified.

SOLID

Bright, subtle, bold or neutral, the MondoClad® Solid colour range is offered in soft natural tones and vibrant hues that enhance any architectural design. Covered in a tough, PVDF coating, the panels retain both colour and gloss and do not chip or peel.

Colours displayed on this colour card are a guide only and have been matched as close as possible to production standards under daylight conditions. Due to the nature of the printing process some degree of colour and gloss level variation may occur. Where more than one finish is available product colour may vary. We recommend that you use production line prepared samples for final colour selection or approval.

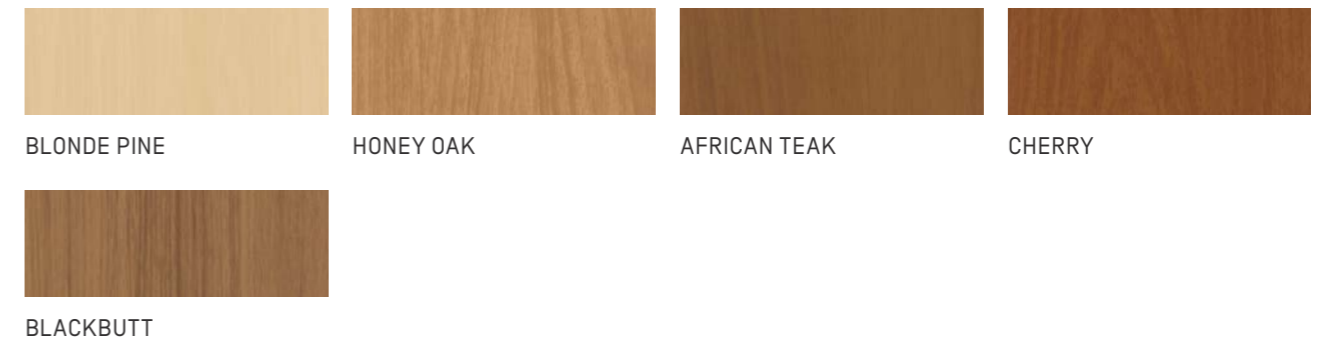

METALLIC

The MondoClad® Metallic range makes a distinctive design statement on any skyline, creating a striking visual mix of gleaming facades and shadows.

WOODGRAIN

MondoClad® Woodgrain range offers a high quality and sustainable alternative to timber products. Complete your projects in one of our premium timber finishes that are maintenance free.

NATURAL

The unique MondoClad® Natural option offers a stunning finish – appearance of a natural texture up-close, and its smooth finish from afar.

NATURAL BRUSHED

SPECIALTY

Our MondoClad® Specialty colour range offers architects the ability to create a unique design that will capture the audience and leave a memorable impression.

EMERALD

CITRINE

Colours displayed on this colour card are a guide only and have been matched as close as possible to production standards under daylight conditions. Due to the nature of the printing process some degree of colour and gloss level variation may occur. Where more than one finish is available product colour may vary. We recommend that you use production line prepared samples for final colour selection or approval.
